

Fullerton Radar

Welcome to the first edition of the Fullerton Radar newsletter.

The newsletter, designed to be the first in an ongoing series, will be distributed quarterly to keep members of the Fullerton Hadley Landcare group and local residents alike up to date with what's going on in the region.

The Hadley locality is a recent inclusion in the Kanganra Boyd to Wyangala Link - part of the wider Great Eastern Ranges Initiative. www.greasternranges.org.au/kanangra-boyd-to-wyangala-k2w-link an important and significant project for our area.

The Fullerton Radar hopefully will keep you informed about some of the upcoming workshops and activities that are planned at the historic Kempton Hall on Fullerton Road (near the Fullerton Fire Shed). We are hoping this is a great way to connect with each other and to meet your neighbour's as well!

We are keen to make future workshops fun, informative and relevant. We are also looking for your input and feedback on concerns or issues that you face in looking after your place or if you have ideas on topics for future workshops you'd like to attend.

We have attached a survey which if you could complete and drop in the red letterbox at 155 Rosevale Road - it would be appreciated. Your survey will enter the draw to win "Dinner for Two" at the Laggan Pub!

Over the page you will find a schedule of the forthcoming FREE workshops - we really hope you can join us.

Upcoming field days

Pest Animal Field Day (Pigs, Goats, Foxes, Rabbits to name a few)
- presented by Mark McGraw - TLHPA Senior Ranger
Saturday 7th September 2013 (9am - 3pm) at Kempton Hall

Everything you wanted know about Pest & Feral animals including

- What to look for (tell tale signs such as tracks, damage, scats etc)
- Know the target (breeding season, preferred habitat, diet etc)
- When is the best time to control them and how
- Group control methods
- Practical sessions on control options, monitoring etc
- Latest control options.

Free to Book

Birds on Farms - presented by Tony Saunders
Saturday 12 October 2012 (8am - 2-pm) at Kempton Hall.

Enjoy a relaxed morning with renowned local expert, Tony Saunders, to discover our local birdlife

- Start with a short bird walk into the Fullerton Reserve
- Presentation on 'Habitat Issues for Birds'
- Visit two further habitats to view birds in both a semi-cleared open woodland used for grazing and then onto a planted areas
- Discussion on bird patterns in a comparison of all 3 habitats visited
Presentation on 'Providing Good Habitat for Birds' and how to attract them to your place

All workshops feature a delicious Morning Tea & Lunch provided at Kempton Hall.
